Dental Card.

I wish to say a word to the Gentlemen and Ladies of Bangor and vicinity. As parents you would do more for your children than for yourselves. A gentleman in Bangor, who is fifty years old, was in my office in April and said that he would give one hundred dollars if I would save one tooth in his mouth without extracting it. But he was too late. If a man will thus value one tooth, what should he ... for his children.
Now if you cannot save your own, you can save the teeth of your children. Almost every day some father or mother will come to the office with some child to have me extract some aching tooth. I examine the mouth and find that the painful tooth is not a temporary but a permanent one. The parent is surprised; you are wrong, she has never had but one tooth there, she will certainly have a permanent tooth when this one is out of the way.
A very large proportion of our patrons, have never known, or have forgotten, that in our first set we have but twenty teeth. And that all teeth that grow back of the twenty are permanent ones, thirty two in all. I have extracted within the past year, seven permanent teeth for one little girl who was not eleven years old. Will you parents suffer your children to suffer for their life time by your neglect? If by neglect you have lost your natural teeth, a good editor will tell you where to go for the best artificial ones. Hundreds of people in Bangor and vicinity can ... by their own experience all that he has said in his paper.
Dr. J. K. LINCOLN.—Though we have not the pleasure of a personal acquaintance with the gentleman, yet we have reason to believe that he is a most skilful practitioner of the dental art. We see, he has made one old face in our house look young again, and has fitted, by art in place of jaws to masticate the food again which nature thought to deprive of this privilege a little too soon. We think the work and composition of the two full sets of teeth he has inserted cannot be excelled anywhere.—*Union Intelligencer.*
My price now is $50 for a whole set of the best artificial teeth, $25 for a half set.

PILES.
Many a person has suffered for years with Internal, Bleeding, External or Itching Piles, and has tried, over and over again, for a remedy to cure but in vain. Thus it used to be, but times are changed; improvements have been made and wonderful discoveries—one of the most important of the greatest benefit to mankind is Briggs' Pile Remedies, which are warranted to cure Piles in every form if used in time according to directions.

CORNS! CORNS!
What is more annoying than Corns? What can be more oppressive than Bunions? What is more painful than ingrowing Nails? Let the victim answer. The most distressing of these torments can be immediately relieved and quickly cured with Dr. J. Briggs's Alleviator and Curative.

LUNG DISEASES!
Diseases, Coughs, Colds, Bronchitis, Asthma, &c.—The above complaints seem to be increasing in prevalence, and if not taken in time, may lead to that dreadful and fatal disease, consumption. What criminality to neglect them when the result may be so terrible! Briggs' Throat and Lung Healer is a positive remedy for all diseases of the throat, lungs and chest—never failing when used in the morning of affliction.

NEURALGIA
Headache, Neuralgia and Nervous Diseases. The wonderful effects of Dr. J. Briggs's Alleviator for the speedy cure of the above very prevalent and painful afflictions, is known to many thousands who have used it with the most unqualified success.
Sold by B. F. Bradbury, W. E. Mann, W. L. Alden & Co., H. H. Butler, C. F. Patten, Blood & Rowe, and Druggists generally.

FRENCH
FIRE-PROOF
LAMP CHIMNEYS.
These chimneys, which are now for the first time offered to the public, possess all the essentials of a heat-resisting Chimney. They are well made, of a superior quality of glass, each one finished smoothly at the bottom, and being carefully annealed or tempered, will not break from the most intense heat of a lamp flame.
A trial of their merits will convince the consumer that, although costing a trifle more than the ordinary class of Chimneys in use, they will prove a source of much economy in the use of Kerosene, a saving of untold trouble and annoyance, and a preventative of many accidents hitherto resulting from the breakage of Chimneys upon burning Lamps.

DR. E. R. CLARKE'S
VEGETABLE
Sherry Wine Bitters.
THE BEST MEDICINE IN THE WORLD.
Purely Vegetable, and will not intoxicate.

Diploma awarded by the Mass. Charitable Mechanic Association, A. D. 1869.

Composed of Dock Root, Sarsaparilla, Rock Rose, Wintergreen, Dandelion, Wild Cherry, Thoroughwort, Prickly Ash, Poplar Bark, Rhubarb, etc. For Weakness, Loss of Appetite, Jaundice, Headache, Sour Stomach, Piles of long standing, Humors, and all Diseases which arise from an unhealthy state of the Stomach, Bowels, and Blood, for which valuable Roots and Herbs, and the knowledge of their great service to suffering humanity, man cannot feel too thankful to Him who wisely provided us with all things.

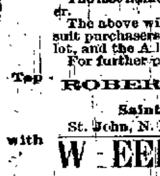

TO ALL PERSONS,
BOTH SICK AND WELL.
If a Long Life of Health and Happiness is desired, let these Bitters be taken, particularly in the Spring and Warm Seasons of the year, and especially by the following classes of people:—The MECHANIC, who, from his constant indoor labors, not having sufficient access to the bracing and refreshing air out of doors, becomes weakened at the stomach, nervous, pale and sickly, his food not relishing nor properly digesting. He should take these Bitters, and freely too, in order to get his system up right and strong, and in prime condition to go through the warm weather in good shape, with his constant daily labors. The exhilarating and cleansing power of the Dock Root, Dandelion, Poplar, and Prickly Ash Bark, is what will bring him up, and make him, physically speaking, once more a man! The MILL OPERATIVE will find this Medicine the very thing to cleanse the blood and strengthen the system, and very mild and pleasant to take. The PALE AND ONCE BEAUTIFUL LADY has but to take this compound freely, and she will be speedily restored to health, beauty and buoyancy. The HONEST FARMER, the CLERGYMAN and LAWYER, and MEN OF SEDENTARY HABITS—this is your Medicine! After once using it, you will never be without it. It will improve you twenty-five per cent. The MARINER will find it the best medicine in the world for his use; it makes him, while at sea, hearty and rugged, and capable of great endurance and exposure; and when on shore, it renovates his blood, and restores and repairs his system.
The Largest Bottle, the Lowest Price, and the most Effectual Remedy in the World.

7-30 GOLD LOAN,
OF THE
Northern Pacific Railroad.

Rapid Progress of the Work.

The building of the Northern Pacific Railroad, begun July last, is being pushed forward with great energy from both extremities of the line. Several thousand men are employed in Minnesota and on the Pacific coast. The grade is nearly completed 266 miles westward from Lake Superior; trains are running over 130 miles of finished road, and track laying is rapidly progressing toward the eastern border of Dakota. Including its purchase of the St. Paul and Pacific Road, the Northern Pacific Company now has 413 miles of completed road, and by September next this will be increased to at least 500.

A GOOD INVESTMENT. Jay Cooke & Co. are now selling, and unhesitatingly recommend as a Profitable and perfectly Safe investment, the First Mortgage Land Grant Gold Bonds of the Northern Pacific Railroad Company. They have 30 years to run, bear Seven and Three-Tenths per cent. gold interest (more than 8 per cent. currency) and are secured by first and only mortgage on the ENTIRE ROAD AND ITS EQUIPMENTS, and also, as fast as the road is completed, on 23,000 ACRES OF LAND to every mile of track, or 500 Acres for each $1.00 Bond. They are exempt from U. S. Tax; Principal and Interest are payable in Gold; Denominations: Coupons, $100 to $1000; Registered $100 to $10,000.

LANDS FOR BONDS. Northern Pacific 7-30's are at all times receivable at TEN PER CENT. ABOVE PAR, in exchange for the Company's Lands, at their lowest cash price. This renders them practically INTEREST BEARING LAND WARRANTS.

SINKING FUND. The proceeds of all sales of Lands are required to be devoted to the re-purchase and cancellation of the First Mortgage bonds of the Company. The Land Grant of the Road exceeds Fifty Million Acres. This immense Sinking Fund will undoubtedly cancel the principal of the Company's bonded debt before it falls due. With their ample security and high rate of interest, there is no investment, accessible to the people, which is more PROFITABLE OR SAFE.

EXCHANGING U. S. FIVE-TWENTIES. The success of the New Government 5 per cent. Loan will compel the early surrender of United States 6 per cents. Many holders of Five-Twenties are now exchanging them for Northern Pacific Seven-Thirties, thus realizing a handsome profit, and greatly increasing their yearly income.

OTHER SECURITIES. All marketable Stocks and Bonds will be received at their highest current price in exchange for Northern Pacific Seven-Thirties. EXPRESS CHARGES on Money or Bonds received, and on Seven-Thirties sent in return, will be paid by the Financial Agents. Full information, maps, pamphlets, etc., can be obtained on application at any agency, or from the undersigned.

WHERE IT GOES.

Hints towards the Solution of the Woman Problem.

Miss Elizabeth Stewart Phelps is having her say in the *Independent* on the subject of woman's status and her possibilities. She notices that the boys and girls stand on equal terms at school and keep well together till the boy starts for college, when a marked separation begins, forming an intellectual chasm never to be bridged; and Miss Phelps asks, "Where did the young lady's intellectual force go to? She propounds the question to an observing woman, and is told, "women's wits go into their clothes!" The author of "Gates Ajar" accept this view of the case, and continues:—

The average young man walks into his tailor's twice a year, pays a bill, and has coats and pantaloons and vests. That is all he knows. He requires shirts, and somebody makes him shirts. He thinks no more. Will he have a hat? Behold a piece of felt, with a galloon string. It does not flop over his forehead. It will never twitch off his back hair. It does not blow into his eyes. Its elastic cannot blister neck or produce depressions of cerebellum. It will not be out of date before the summer is over. It is seldom or never a matter of anxious reflection. It is a fixed fact, like yesterday's dinner or the last election.

The average young woman expends enough inventive power, enough financial shrewdness, enough close foresight, enough perturbation of spirit, enough presence of mind, enough patience of hope and anguish of regret upon one season's outfit—I had almost said upon one single street suit—to make an excellent bank cashier or a comfortable graduate of a theological seminary.

If you doubt the truth of this statement, just take in for yourself, with the "cricket's eye," the first young girl you meet down town. How few fully and wonderfully made! How do you suppose those flat folds, and double box plaits, and fluted ruffles, and corded bands, and shirred waists, and paniered skirts, and bowed, and flounced, and tied, and corded, and laced, and buttoned, and spangled, and fringed, and folded, and dotted, and hunched, and bunched, and horrible mysteries got together?

There was manœuvering enough expended upon the dressmaker to have elected a representative, and concentration of mind upon the seamstress intense enough to have withstood a Wall street panic, and headache enough put into the sewing machine to have mastered "Porter's Human Intellect." And now it requires care enough to keep herself together to save a soul.

I once saw a young lady ride the whole way from Portland to Boston in the cars without once leaning back against the cushioned seat, so that she should not tumble her black silk sash.

A barber told me that he "curled a young lady" once for a ball; "and she had two hundred and forty seven curls when she was done. And I began at ten o'clock in the morning, and I never got through with her till nine o'clock at night!"

Dr. Dio Lewis tells of a being who put four hundred and twenty-five (I think) yards of trimming upon one single dress.

"We get no Christ from you," said Romney Leigh. "And, verily, we shall not get a poet, in my mind."

And verily, when society has reduced women to such straits as this, one hardly understands such a fact as Elizabeth Barrett Browning.

Four hundred and twenty-five yards! Conceive of the Hon. Charles Sumner or Professor Longfellow in four hundred and twenty-five yards of trimming! Imagine the speech on San Domingo, or the Psalm of Life written in a black silk sash tied in a snarl to the author's coat tail, he pausing at every classic metaphor, or at the close of each martial stanza, to see if he had tumbled himself behind.

Fancy Brown Sequard at a consultation in two hundred and forty seven curls. Picture him timing the pulse of a dying man with one hand and tightening his hairpins with the other.

It is a threadbare experiment of outraged taste to fire broadsides of ridicule at women's dress: but it is neither fair play nor fair logic to do "only that and nothing more." Women are what men have made them. You had the first chance, sir. "Our hour is not yet come." It is quite as much your fault as ours that you write epics while we hem frills; and that you support the family while we punch stiletto holes in a piece of cambric, or prick yards of muslin into embroidered "insertin," to enrich our necks and arms withal.

From the time that a girl-baby is put into a flimsy muslin upper skirt, with three frills and a boy-baby into a solid piece of blue flannel, with a sailor collar and brass buttons, to the day when Mary leaves school and begins (alas poor Mary!) to "do her own sewing," the girl's mental force is imperceptibly, insiduously, poisonously draining away into the covering of her poor, little, innocent, beautiful body. By that it is "time for her to be married," and *then* the last state of that woman shall be worse than the first.

Men dress to please themselves. Women dress to please the men. A man's attire has regard to his comfort, his convenience, his means, his business, his whereabouts, his health, his happiness. A woman has regard to the whims, the fancies, the weakness, the admirations, and the passions of men.

Run your eye over any "female" seminary that you may chance upon, and how often would you find a girl to whom you would say that it has ever occurred to inquire why it is that she should put ten rows of velvet in a "Grecian pattern" on the bottom of a dress, while her brother has his coat bound once with a silk braid, and then calls it a "gimp." and never knows the difference to his dying day? Why she wears four feathers, several yards of ribbon, a piece of lace, cambric flowers, and a veil upon her straw hat; and he only a little sliding band pinned straight over the crown? Why her hat tips over her nose, and his stays on his head? Why she is burdened with a pink parasol, and he goes hand free and burned and happy? Why he may freckle from forehead to chin, if he likes; and why she locks herself into her room and cries when she discovers the tenth, upon the bridge of her nose? Why he should wear comfortable loose coats, and she uneasy, tight basques? Why he is in broadcloth, she in transparent muslin? Why her pretty neck is bare, his decently covered? Why she pays four dollars for a lace collar, he twenty-five cents for a linen? Why she is pinched into corsets, and he is not? Why his shirts are made into plain bands, and every article of her under dress is trimmed? Why her very handkerchiefs are reduced to a senseless, useless mass of fine embroidery and lace work, to which he would refuse the dignity of a mosquito netting? Why, in short, all the use of dress is his, the *fuss* hers? The sense his, the nonsense hers. The beauty—I hesitate. Man is not a graceful being; but in this cultivated year of our Lord, one thousand eight hundred and seventy-one, his very stove pipe hat and sack coat yield the field to the unapproached and unapproachable deformity of woman's attire.

It takes more and worse than brains to dress as women are expected to dress. It takes morals.

The first pure minded woman know or think, in copying the latest modes, that they have sprung from the corrupt ingenuity of Parisian harlots only makes the matter worse. Good women ought to think. It is their duty to see, not to ignore, to exile, not to overlook, an immodest style. The mischief and misery will never be remedied till they do. Bad women think, meanwhile, and society responds to the thinker, irrespective of moral quality.

These are sharp, plain words in which to put a very sad, subtle truth; but they are the sad and subtle truths which require sharp, plain words. This would be no place to say them if they were said in their place.

If every woman who has the training of young girls in her hands would teach them, as fast and as far, as slowly and as finely, as carefully and as tersely as she can that, the entire past and present theory of feminine dress is a degradation to a good woman and an opportunity to a bad one, she would do more toward saving the world, than any pulpit but the New Testament, and than any preacher but St. John.

When the world learns that there is worse than no reason why women should sacrifice any more time, money, strength, intellect, or modesty to their dress than men, we shall have ten women citizens, scholars, inventors, sculptors, artists, poets, scientists, and rulers where it would be impossible, in the nature of things, to find more than one now.

GENERAL SHERMAN THE DEMOCRATS AND THE PRESIDENTIAL ELECTION

When General Sherman was credited with that speech at New Orleans, the report of which he afterwards denounced as unauthorized the N Y Herald promptly nominated him as the Democratic candidate for President ... and the organs of that party were loud in their praises of his wisdom and political sagacity. Tecumseh has spoken again and this time his words fall less sweetly upon the Democratic ear. The enthusiastic admirers of the speech at New Orleans must now decide ... themselves whether the words ... then or those more recently reported ... the actual sentiments of the ... unless they are willing to admit that ... journey through the South has served to convince even his piercing intellect ... hitherto unappreciated facts. As the Herald was the first to hoist the General's ... as a standard bearer for the Democracy ... comments of that paper upon the recent expression of his political ... general bearings upon the ... campaign.

It appears ... that since his ... travel and observation from New Orleans ... Louisiana Arkansas and Texas, to ... Comanche Reservation and thence ... to Missouri and thence east ... to Saratoga, General Sherman has become convinced that the Ku Klux bill is "a ... that ... is already stopped a good many outrages and that ... the simple fact that the President has power to send troops into any State to quell disturbances in itself ... enough to frighten the disturbers of the ... He thinks moreover that ... Mr ... Quincy Adams says of the Ku Klux bill as a bill of despotism is all stuff and humbug, for that the bill is simply a law making it possible to arrest and ... unlawful gangs of rascals, black or white ... Southern States to imprison them and try to punish them ... Grant ... have any negro or German or Irish policy ... his policy is to protect all ... remain at peace economize and try to pay the debt

... General Sherman's ideas about ... and his administration his claims ... and his prospects for another term and in a few words he covers all the ground of Senator Sherman's exhaustive opening campaign speech in Ohio. We thought from the very decisive tone of General Sherman's letter to the Herald from the Comanche Reservation, declining to be a candidate of any party on any terms for the Presidency that there was something still behind. Now we have it—The General is ... entirely satisfied with his present life estate as head of the United States armies ... satisfied with General Grant's administration and ... his re-election and is ready to bet on it—two to one—against all comers. Consequently that little New Orleans speech of General Sherman which we had interpreted as an ... opening through the woods for the ... Democracy is extinguished for ... even on this question, is still the right hand man of Grant.

It is apparent, too, on every hand, that these opinions of General Sherman widely ... among all races and ranks of the people ... in all sections of the country. What ... can we do for the Democratic party? In the present condition of things we are ... perplexed upon this point.

We had almost despaired of convincing the ... leaders of the Democracy that ... has been a deluge and that it has ... changed the face of the political world ... hemispheres when lo and behold we ... announcement of the new departure ... the lamented Vallandigham, and its ... general acceptance by the Northern Democracy ... its indignant rejection by Jeff Davis ... his faithful ... henchmen of the ... cause. There is some reason to fear however that this "new departure," postponed to the eleventh hour comes too late. It is not ... the perplexed Democracy North ... and from present indications as a ... movement it can hardly be counted a Democratic success. Quite as much admit ... doubt and conjecture are the rank and file of the party in reference to their Presidential candidate. We ... recommended and urged upon them the ticket of Chase and Hancock and a strong ... ticket to boot but each little faction appears to have its own idol and it is evident that the Chief Justice is not among them and has no reliable Democratic worshippers

We must therefore await the results and the developments of the approaching September, October and November State elections.—We may say too concerning these elections that ... recent events have awakened a ... general interest in regard to the probable result in New York in November than in reference to the result in any other State and for the reason that, since the 12th of July the ... New York is beginning to be considered at last doubtful looking to the maintenance of the Democratic power at Albany ... New York then from these late riotous ... in this city and their political bearings, has become at least debatable ground for November and it is probable that the intervening elections of September and October will increase the doubts of Tammany Hall. At all events we must now hear from the people before we can define the Presidential prospect for the Democracy and we look for some startling results in these approaching fall elections

THE TAMMANY THIEVES

The N Y Times continues its publication of extracts from the Comptroller's accounts. It says that the enormous checks thus far referred to only include those endorsed by Ingersoll a former partner of Tweed and a prominent minor member of the ring and that the total amount similarly made away with on the pretense of paying for furniture and repairs to the armories and court house during two years is $9 789 482 19. For carpets shades, &c for the county buildings $747,890 78 is charged which allowing $200,000 for shades &c " would suffice to have carpeted the whole City Park three times over at $5 per yard. It very naturally regards Garvey as the "prince of plasterers," receiving in one day for plastering and repairs $45,966.89 for the month of July, 1869, $158,756 14, May 1870, $894,614.57, and for portions of June and July, 1870, $945,715.11, all for work done in the new court house.—For two days work, Dec. 20 and 21, 1869, this person received for repairs on this new building $133,187 90. In commenting on these figures, the Times says "A plasterer who can earn $133.187 in two days, and that in the depth of winter, need never be poor. Altogether, Mr Andrew J Garvey received in two years—or some one received in his name—the sum of $2,870,464 06. He could certainly afford to give way the odd six cents in charity."

The Tribune exposes the evasion of Mayor Hall's letter and says to him plainly:

Mr. Mayor! do not make the sad mistake of supposing that this matter can be laughed off, or punned off, or that it will die out.—... trusted and paid guardian of the ... people ... you. ... to bring them to justice. ... will not

screen them—they cannot effectively cover their track ... You indignantly deny ... share in the ... you ... have richly earned. We ... press your countenance by helping to expose and punish the takers.

And the following from the Standard shows that there is fair reason to hope that this rascally combination which is the acknowledged head of the Democratic party in this country is at last to be overhauled by the public

But why not, Mr Mayor and Mr Controller come out and give specific denials to the Times's specific allegations, if you can? We want—earnestly want—you to free yourselves from all suspicion. Here are the figures.—They are true or false. If true, you sanctioned the wholesale thievery in the name of Ingersoll, Garvey & Co, and these very same men are now your associates and confidants. They do the same work for you they did two years ago, and everybody knows that the same corrupt hands that were in the treasury then are deeper in it now

We understand that some of our prominent business men were engaged yesterday in organizing one of the most formidable movements against the corrupt rulers of Tammany which these reckless robbers of the people have yet had to encounter. They propose that all the influential capitalists, bankers brokers and merchants of New York should combine together and refuse to pay any future municipal taxes till Mr Controller Connolly's accounts have been made public and duly audited by the people—not by Tammany Hall. This is as it should be. The citizens of New York, too long insensible to their duties, are at last aroused by the disclosures of municipal corruption, which have been proved by them—they were far from unsuspected—during the past week. This movement is no warning—warnings have been long unheeded, it is the death knell of Tammany's rule! Our city officials appear to have courted the scorn and indignation of their fellow citizens. They bid fair to have it and with a vengeance

BUTLER AS A TEMPERANCE LEADER.—At a thinly attended meeting of the Massachusetts Temperance Alliance in Boston, on Wednesday, the merits of the several candidates for Governor were discussed. Rev Dr Marvin said he had talked with Gen Butler, who would soon publish a manifesto wherein he would plant himself firmly on the prohibitory platform and in case of his nomination and election if Boston cast her vote against him he would make the city as hot for rumsellers as he made New Orleans for rebels.—There was a disposition to indorse the General on the spot, but the Alliance finally decided to await his written pledge

HIBERNIAN COMBINATIONS IN NEW YORK. A meeting of ward delegates for the purpose of promoting the organization of new Irish militia regiments, held in New York city, Tuesday night adopted resolutions stating, 'That as loyal citizens of this Republic, the Irish people who live under the constitution and laws of the United States, should place themselves in a position to be able at any time to defend the Republic from all enemies, both foreign and domestic, and to resist the inroads of despotism or monarchical institutions into this country should an attempt in that direction ever be made. It is determined to have a mass meeting before long upon this subject. The Independent Volunteers of the Ancient Order of Hibernians, have called a meeting for next Saturday evening and invited all Irishmen to form themselves into a combination for self protection. The resolutions adopted by the several associations Tuesday night, show that the same spirit which prompted interference with the Orange procession is still alive and assuming a dangerous form.

THE SCRANTON COAL SALE. The monthly auction sale of Scranton coal in New York on Wednesday was largely attended and the bidding was more than usually spirited. The prices of last month were generally maintained. One hundred and thirty thousand tons were sold at the following prices—Lump $4.25 @ $4.40, steamboat, $4 25 @ $4 30 grate, $4 80 @ $4 85 egg, $4 92½ @ $5 00 stove $5 42½ @ $5 45 and Chestnut, $4.37½ @ 4 42½

Two Democratic daily and weekly newspaper organs are to commence a struggle for existence in Lowell, Mass. this fall in season for the State campaign

Thomas Hosmer, one of the oldest and most highly esteemed citizens of Hartford died on Wednesday aged 86 years. Many years ago he published the "Connecticut Mirror."

The Connecticut Legislature has passed the bill consolidating the N Y & N Haven and Hartford & N. Haven Railroads. The appropriation for a new State House at New Haven has been finally defeated

The Albany (N Y) Evening Journal says the Republicans of that State cannot be blind to the present opportunity, for, so far as State matters are concerned, they never had so good a case before the people as now

A Western state has upon it the following: B Gratz Brown of Missouri President; John Quincy Adams of Massachusetts, Vice President. Doubtless Brown is willing, but "the gentleman from Quincy" might prefer a transposition of the ticket.

A newspaper man said to Gen Sherman You killed a good many Indians out West." "No" said 'Tecumseh, "the papers kill more Injuns than we do. Why, if we killed half as many Injuns as the New York Herald does, we'd be *short of Injuns*"

Captain James C Williamson of the U S Navy died in Jersey City Monday night. He superintended the landing of reinforcements at Fort Pickens on the 15th of April, '61 and was made Commander for his gallant conduct. He was commissioned Captain in 66 and stationed at Boston till '69

It is curious to observe the change of tone with reference to President Grant adopted by Democratic journals. During the war they termed him "an imbecile," a "butcher" a "creature of luck" Now, he is a second Napoleon who is watching for an opportunity to perpetuate his rule, and hence a very "dangerous" man

It is now believed that the Ku Klux investigating Committee will report in favor of the bill drawn up by the Commissioner of Internal Revenue and introduced in the last Congress providing for a mounted revenue police force to be selected from reliable citizens in the district where now the revenue officers are powerless to enforce the laws.

Alexander H Stephens may have read the little story of the young bull which tried to butt the locomotive off the track, but he never can have heeded it. The upshot was that the train went on, and beef meat was very cheap in that locality. Yet here is Alex. H. butting his foolish head against the XIVth and XVth amendments. The spectacle of a man who is dead and don't know it, is a very sad one.

Referring to the Southern practice of demanding the last farthing of the debtor, however unfortunate he may have been, where Northern creditors would be content with a certain per centage, leaving the debtor a chance to go ahead again, a Southern correspondent writes: "It is this Shylock spirit and refusal to compromise the old ante-war debts that is to-day more than anything else keeping the South behind. Yet these same holders of old notes are loudest in talk of ... ... doing, ... 'bonds."'

ARRIVAL OF THE TYNE CREW.—The steamship North America, from Liverpool, arrived at Halifax on Wednesday, with the Tyne crew, consisting of Renforth, Perry, Brighland Chambers, among the passengers. They brought with them a new lace boat. The crew were to proceed by rail on Thursday to St John

THE

EUROPEAN AND
NORTH AMERICAN
RAILWAY CO.

THE E & N A RAILWAY is completed from Bangor Maine to St John New Brunswick a distance of 202 miles—with the exception of 58 miles between Winn, Me and the boundary line of the State at Vanceboro. On this portion the track is now being laid, both from Winn *eastward* and from Vanceboro *westward* and the work will be completed and trains running from Bangor to St John in September next

This road will then be

THE ONLY RAILWAY

CONNECTING THE UNITED STATES AND THE BRITISH PROVINCES (New Brunswick and Nova Scotia) The population of the maritime Provinces is about ONE MILLION and all the land travel freight, mails &c between them and the United States will pass over this Trunk line which is WITHOUT COMPETITION. Although not yet completed the business of the road is already far greater than its most sanguine friends predicted, and is continually increasing

The net earnings from Local Business alone on the 56 miles completed in Maine already exceed the interest on two and one quarter millions of dollars and will be largely increased after Sept next by the business to and from the Provinces

To complete this road and to equip it as fully as its present large business and the immediate increase consequent upon its completion requires—the Company has issued its Bonds to the amount of Two Millions of Dollars, secured by a

FIRST & ONLY MORTGAGE

ON ITS ENTIRE ROAD AND PROPERTY FROM WINN TO VANCEBORO (besides a Second Mortgage on the entire road and equipments from Bangor to Winn 56 miles. This portion cost some $ 500 000 and the only lien thereon is a mortgage to the city of Bangor for $1 000 000)—and in addition thereto, by a FIRST AND ONLY MORTGAGE on

800,000 Acres of Land

Said lands being the same granted by the State of Maine to aid the construction of this road. They are situated along the Penobscot and St John rivers and are heavily timbered and valuable. Large tracts especially in the fertile Aroostook Valley (the finest agricultural district in the State) are valuable for farming lands as well as for their timber. This immense amount of land is equal about

14,000 Acres to each Mile

of Railroad with which they are mortgaged. They cover 1250 square miles (nearly as large as the State of Rhode Island which is 1306 square miles) and are of great value

Thus, besides the mortgage of the Railway its equipments &c , which alone is ample security for the Bonds there are timber and farm lands to the amount of

400 ACRES TO EACH BOND

also pledged to ensure the payment thereof

RAILROAD MEETING IN PORTLAND.

PORTLAND, Me., July 26.

The railroad meeting called to act in the interest of Senator Hamlin's bill which contemplates aid from government in building a [illegible] supporting railway from Chicago [illegible] here to-day. It was contemplated that the speeches should be served [illegible] clambake down the harbor, but the rain prevented and the meeting assembled at City Hall at three this afternoon, when Gov. Perham was chosen chairman. Senator Hamlin addressed the meeting saying that he came for a private conference and not to speak and it was his part to learn [illegible] give information. He favored railroads to the West but opposed [illegible] monopolies.

Hon. John A. Poor followed Senator Hamlin and the meeting adjourned till evening.

Evening—Among the speakers were Judge Fowler, President of the New Hampshire Railroad; Hon. Henry Clark, of Rutland, Vt.; Col. Joyce, Speaker of the Vermont House of Representatives; Hon. SPAIN

A LIBERAL CABINET.

London, July 26. The latest developments as to the Spanish ministry is that Senor Zorilla announced in the Cortes yesterday that the members of the Cabinet are all "Progressists." This implies that the combination formed by Marshal Serrano has really failed to cohere and that a new ministry, formed entirely from the liberal element of Spanish politics, has been formed by Senor Zorilla.

Madrid, July 26. The new ministry formed by Zorilla have all been sworn into office. Zorilla declares that they are all "Progressists" and will follow the policy inaugurated in the September revolution. There has been no difficulty in the formation of the Cabinet since the resignation of Serrano.

DOMESTIC NEWS.

FROM WASHINGTON

WASHINGTON, D. C., July 26.

The total expense of advertising and negotiating the new loan up to June 30, not including the cost of paper, engraving and printing in the bureau at Washington, was $314,565, of which $11,380 were paid for advertising in Europe and $114,316 for advertising in the United States. The commissions to banks and bankers included in the above sum, were $171,180. Between $5,000 and $6,000 have been paid to two bank note companies in New York for engraving. Mr. Bigelow, Chief of Division of Loans, who accompanied Assistant Secretary Richardson to Europe, was appointed disbursing clerk, and drew $5,000 to meet the expenses in Europe. The difference between the items enumerated and the total represent the amount paid for telegraphing, expressage and other incidentals. The amount outstanding for advertising is inconsiderable compared with the amount already paid.

Commissioner Pleasonton offers $5,000 reward for information which shall lead to the arrest and conviction of the person or persons who mortally wounded revenue officer Gilbert while in the discharge of his duty at Brooklyn on the 4th inst.

Gen. A. R. Wright, a practicing lawyer and editor of the Chronicle and Sentinel at Augusta, Ga., testified before the Ku-Klux Committee to-day that the people of Georgia were peaceful and law-abiding and that the laws are as fully enforced as before the war. He said that his law practice extended to ten counties, and from his personal knowledge and observation in the State the negroes enjoyed all the privileges in the courts accorded to the whites. In fact, the juries seemed to lean a little towards the negroes from the apprehension that they might be suspected of doing injustice to them. In reply to the question whether he knew of white men having committed offences against the negroes, he replied that he prosecuted a white man for the murder of a negro and he was convicted of manslaughter and sentenced for the full term allowed by law. In the same Court a white man charged with the murder of a negro was found guilty and sentenced to be hanged on the first Friday of September; and while these two trials were in progress 12 white citizens of Washington county were arrested under the Ku-Klux law, carried 130 miles and tried by a U. S. Commissioner for assault and battery of negroes. They were kept in jail several days, but on investigation before Gen. Swayne and a carpet-bagger named Leet, they were acquitted. Witness said he had no reason to believe that there was an organized band of Ku-Klux in Georgia for political purposes, nor had he ever heard of any. He, however, knew of a band of marauders like Monell's gang that extended through a portion of the counties of the district in which he lived, and two white men were convicted in Washington county suspected of belonging to the band. A man named Bruce, who killed a negro, was found guilty by a military commission, but was pardoned by President Johnson. This same man not long ago killed another person, was tried, found guilty and sentenced to be executed on the 4th of August. Governor Bullock reprieved him and his friends said that in order to have him pardoned it was necessary to make some arrangements. As to the nature of the arrangements, witness replied that they involved the raising of a sufficient amount of money in the furtherance of their design.—Having been asked what effect the disfranchisement under the 14th amendment had on the public mind, the witness replied that it was a cause of complaint among the people against the government. The people murmured because the men heretofore accustomed to conduct public affairs were kept out of the offices where their former slaves are now law-makers. If the disabilities of the people were removed and they were allowed to select their best men for public offices, there would be no cause of complaint against the government. The relations of the white and black races are perfectly harmonious. The negroes have been neither cheated nor swindled, but are fairly treated.

A MAMMOTH FERRY BOAT

NORWICH, Conn., July 26.

The new ferry boat Thames River, built by the New York, Providence and Boston Railroad Co., to run its line between New London and Groton, made an excursion to-day. The boat was built at Greenpoint, L. I., by Henry Steers, under the supervision of D. S. Babcock, Vice President of the road, and is a magnificent vessel of 850 tons. On its main deck are two tracks which accommodate six cars, a waiting saloon, the engine, a large kitchen, &c. The most notable feature of the boat is a large dining saloon on the hurricane deck 120 feet long by 37 feet wide. The boat is fitted with every convenience for comfort and service. Special trains from Boston and New York were run bringing about 400 invited guests, and at 1 o'clock the boat steamed out into the stream.

FROM NEW YORK

NEW YORK, July 26

TAMMANY TRYING BRIBES.

The Brooklyn Union this morning says: "We have the highest authority for saying that a prominent member of the Ring called upon the principal proprietor of the New York Times, a week or two since, and made a startling offer for the copy-right of the paper. He was told that there was not money enough in New York city to buy the Times. A day or two after, a Tammany Republican called on the same gentleman and offered one million dollars on the part of the Ring if the Times would keep silent concerning the frauds it is now unearthing."

The new city loan for the construction of docks and piers has been taken up by the International Bank of Hamburg, in London and the Commissioners have already commenced to draw against the fund to the extent of some thousands of dollars to pay outstanding claims.

Schooner Burdett, Hart, from Baltimore reports that at 8 a. m. yesterday, 20 miles S. S. E. from Barnegat, fell in with a fore and aft schooner loaded with pine wood, capsized and lying on her broadside. The first part of her name was Isaac; she had six men on her side. We laid by her four hours and made an attempt to get a line to her but a heavy gale blowing at the time from the N. E. and a heavy sea running, could not succeed in saving the men off. She lay with her broadside well out of the water; as the gale soon moderated it is probable that the crew were taken off by a passing vessel.

FROM THE PACIFIC COAST.

SAN FRANCISCO, July 25.

The accounts from Amador county lead to the hope that the trouble there may be settled without calling out the troops the second time. No new disturbances are reported though intense excitement prevails there and the leaguers are evidently ripe for mischief.

THE WEATHER.

WAR DEPARTMENT,

NEW MAGAZINES.

The August ATLANTIC is a fine number and its opening article on "Werewolves and Swan-Maidens," will be found of more than common interest, dealing as it does with subjects so fascinating to the curious and thoughtful of every age. Whittier's poem, "The Singer," is a sweet tribute to the late Alice Carey; and "The Whispering Gallery" is an enchanted palace as usual, with Dickens for the prince.

OUR YOUNG FOLKS for August has more of "Jack Hazard's" adventures, and we rejoice with the hitherto homeless little waif over the comfortable home and kind friends that he seems at last to have found. These two magazines are published by James R. Osgood & Co., Boston.

LIPPINCOTT'S MAGAZINE for August opens with an interesting article on the "Great War of 1870," by Edmund Scherer, a writer for the Parisian press, and appears to be a candid, impartial statement of the causes, character and results of that terrible struggle. The other articles in this number are without exception seasonable and interesting.—J. B. Lippincott & Co., Philadelphia.

THE LADY'S FRIEND for August is an interesting number, full of the good, fresh stories that people like to have for summer reading. There is the usual colored Fashion Plate, and numerous wood cuts of ladies' dresses and fancy-work. Deacon & Peterson, Philadelphia.

MORE RAILROAD SLAUGHTER. A railroad disaster occurred at fifteen minutes past six o'clock, Tuesday evening, on the Toledo and Wabash Railroad, 16 miles from St. Louis, Mo., and near Edwardsville, Ill. A freight train of thirty-three cars, heavily laden with grain, going South at great speed, collided with a gravel train on which were a number of laborers returning home from their work. Six laborers were killed outright and four others fatally injured. About one-half the remainder of the laborers were more or less injured, some quite seriously. The track was not cleared at a late hour Tuesday night and the Express trains transferred their passengers. The collision occurred on a short curve and neither of the engineers was aware that another train was on the track until it was too late to prevent the disaster. The engineers and firemen of both trains jumped off in time to save their lives. Both engines and a large number of cars were demolished.

R. J. Bright, editor of the Indianapolis Sentinel has been arrested for alleged perjury, in swearing to false accounts as State printer. His trial will begin Thursday.

FIRE IN BREWER.—A small frame house owned and occupied by John F. Stevens, situated on Chamberlain street, in Brewer, about a mile from the toll-bridge, was destroyed by fire about ten o'clock last evening. The family had retired for the night, and barely escaped with their lives through a window. Nothing was saved except four chairs, a sheet, a door, and a couple of window sashes, all the rest of the furniture and household goods, clothing, &c., as well as $35 in money, being destroyed by the flames. Loss estimated at $500; no insurance. The loss falls very heavily upon Mr. Stevens, who had invested all he had in the world in this house and its furnishing, and is thus left penniless. He was formerly a member of the Fire Dep't of this city, where he did manful service, and also bore an honorable part as soldier in the late war.

MRS. HIGGINS SETTLED.—Julia Higgins was sent to the Alms House yesterday, on an Overseers' warrant. She went to Orono to escape appearing in Court against her husband, but returned to this city Tuesday night and was captured on Center street by Officer Sweetser. Julia is a hard ticket, and though not one person in twenty would have survived the beating she received from her husband, she is apparently as lively as ever. She has been sent to the Work House several times by the Overseers of the Poor, to keep her out of mischief and away from rum, but immediately on being released has taken to drinking and quarreling with her husband again, as earnestly as before. It is but just to the member of the Board of Overseers who visited her after her last beating, to state that she informed him that there was plenty to eat in the house, that she could take care of herself well enough, and that she desired no assistance from any one.

THE COIT EXCURSIONISTS, a party of 325 persons from Worcester, Mass., who are taking their annual salt-water trip on the steamer New Brunswick, reached Eastport at 6 o'clock yesterday afternoon. They will go to St. John to-day, and to-morrow morning the steamer will cross to Annapolis, Nova Scotia, where an excursion train will be in readiness to take the party to Halifax, where they will spend the day, returning to Annapolis at night. On Saturday St. John will be again visited, and the excursionists will remain there over Sunday and Monday. Tuesday they will return to Eastport, Wednesday night will be spent in this city, Thursday Gardiner will be visited, and other important places on the coast of Maine will probably be touched at on Friday. Early Saturday morning the party expect to be in Worcester again.

LATEST NEWS IN BRIEF.

The San Francisco street car companies have reduced the fare from 6¼ to 4 cents.

Ned Myers and Lewis Coppege were hung at Wadesboro, N. C., last Friday for the murder of James W. Redfearn, a citizen of that place, last May.

The injunction suit of the stockholders of the united railroads of New Jersey against the lease to the Pennsylvania Central, has been postponed until next Wednesday.

Fifteen buildings, nearly all of which were occupied for the sale of ship stores, were destroyed by fire at Fredericton, N. B., on Tuesday. Loss $200,000; insured $50,000.

There were fifteen proposals of bonds to the government on Wednesday, amounting to $2,600,000, at $112.10 and $112.50, and the award was one million at $112.10 and $112.23.

Capt. Helm of the New York police force has been acquitted of the charges of cowardice on the day of the riot, published in the Sun, by a unanimous vote of the board of Police Commissioners.

Honora Greaten an old rag and bone picker in New York, left $5,000 deposited in a Savings Bank. Her will provided that the money shall be expended in educating a little girl who lived with her.

In a gale on Tuesday, the yacht Sunshine was driven from her moorings at the pier at Cape May, with only two men on board.—The sea was too heavy to attempt a rescue, but the craft was brought up by her anchors in the bay, and rode out the storm.

The horse disease is still making great havoc in the horse railroad stables in New York, and a Paris letter states that an epidemic of a serious nature prevails among the horses of the Paris Car Company. Out of 300 purchased lately from the Prussians upwards of 200 died in a few days.

The Lehigh Valley and Pennsylvania and Reading Railroads have purchased for $141,000 three hundred acres of land at Perth Amboy, N. J., with an extensive water front to be used for the construction of docks and as a shipping port for the coal traffic of the roads.

A Lowell, Mass., dispatch states that the official records, as examined daily from the time of the report of the first case six months since, show only 151 cases of small-pox and varioloid, and 51 deaths, which in a city of a population of over 40,000, is less than the reported deaths by consumption during the same period.

HAYTI. A letter received in New York from Port au Prince, states that nineteen citizens of Hayti have been arrested and imprisoned for cannibalism.

A proposal to hang the life-size portrait of Charles Sumner in the Haytien Legislative Hall next to that of Dessaline, was violently opposed by Thoby, a member from St. Marc, on the ground that his (Thoby's) grandfather was murdered by Dessaline. Thoby's remark drew forth an angry reply from the member from Gonaives, and insults from each other were followed by a challenge for a duel, which was, however, prevented by mutual friends.

THE ST. LOUIS EXPRESS ROBBERY.—Further particulars of the robbery of the U. S. Express Company's wagon at St. Louis, Mo., Tuesday, lead to the suspicion that it was a "put up job," and that the driver and perhaps the messenger were implicated.—When the driver was taken to the police station, his eyes showed no signs of having pepper or snuff thrown into them, as he had claimed had been done. The gag in his mouth was so loose that he easily pushed it out with his tongue and his hands had not been bound. A pistol was in the wagon and no attempt was made to use it; neither did the driver attempt to attract attention while the safe was being rifled. Both men are in custody.

The land grant bonds with coupons of July 1st attached, of the Kansas Pacific Railway, stolen from the Express wagon, were numbered 301 to 360 and 250 to 286 inclusive, for $500 each, and 481 to 500 inclusive, for $250 each.]

YELLOW FEVER IN BRAZIL. A letter from an American resident at Para, Brazil, July 4th says: "The yellow fever has assumed a very malignant form at Para. Nearly every stranger in the city has died. The English Consul died a few days ago and I hear to-day that his wife is dying. Drs. Lamos, Walcher, Quadros and Lobos, and all the other Brazilian physicians, are losing nearly all their patients with yellow fever. All strangers are liable to take the fever in Para and nearly every Portuguese who has come here within the past six or eight months has died."

Several ships which lately arrived at New York from Para, have been quarantined in the lower bay, but the last steamer from Rio was permitted to reach her dock, though she had touched at the above port.

A WOMAN ACCUSED OF WHOLESALE CHILD MURDER. Much excitement prevails at Pennington, N. J., over the case of a young colored woman named Mary Brister, who is accused of having murdered several children. The accused is a daughter of Mrs. Wesley Weisner by a former husband. Mrs. Weisner's children had been left in her charge while the parents have been employed at daily labor; all the children have died in some mysterious way. Two died over two years ago very suddenly. A few days ago a fourth child died. The physician gave it as his opinion that the child had been strangled.—The circumstances connected with its death caused suspicion as to the death of the others to be thrown on the girl.

A STRANGE CASE. Herbert W. Mellen, aged 21, a son of C. B. Mellen of Lowell, Mass., shot himself about eight o'clock, Tuesday evening, but whether accidentally or otherwise, is not known. He was in his chamber preparing for a change of clothes to go out and his mother was in the room with him at the time. The ball entered the right temple and was taken out on the opposite side near the top of the head. He lived until one o'clock, Wednesday morning, without speaking. He was a machinist and a young man of excellent habits and living in a pleasant home.

CONSUMPTION,

ITS CURE AND ITS PREVENTIVE,

By J. H. SCHENCK, M. D.

Many a human being has passed away, for whose death there was no other reason than the neglect of known and indisputably proven means of cure. Those near and dear to family and friends are sleeping the dreamless slumber into which, had they calmly adopted

DR. JOSEPH H. SCHENCK'S SIMPLE TREATMENT,

and availed themselves of his wonderfully efficacious medicines, they would not have fallen.

Dr. Schenck has in his own case proven that wherever sufficient vitality remains, that vitality, by his medicines and his directions for their use, is quickened into healthful vigor.

In this statement there is nothing presumptuous. To the faith of the invalid is made no representation that is not a thousand times substantiated by living and visible works. The theory of the cure by Dr. Schenck's medicines is as simple as it is unfailing. Its philosophy requires no argument. It is self assuring, self-convincing.

The Seaweed Tonic and Mandrake Pills are the first two weapons with which the citadel of the malady is assailed. Two-thirds of the cases of consumption originate in dyspepsia and a functionally disordered liver. With this condition the bronchial tubes "sympathize" with the stomach. They respond to the morbific action of the liver. Here then comes the culminating result, and the setting in, with all its distressing symptoms, of

CONSUMPTION.

The Mandrake Pills are composed of one of Nature's noblest gifts—the Podophillum Peltatum. They possess all the blood-searching, alterative properties of calomel, but unlike calomel, they

"LEAVE NO STING BEHIND."

The work of cure is now beginning. The vitiated and mucous deposits in the bowels and in the alimentary canal are ejected. The liver, like a clock, is wound up. It arouses from its torpidity. The stomach acts responsively, and the patient begins to feel that he is getting, at last,

A SUPPLY OF GOOD BLOOD.

The Seaweed Tonic, in conjunction with the Pills, permeates and assimilates with the food. Chylification is now progressing, without its previous tortures. Digestion becomes painless, and the cure is seen to be at hand. There is no more flatulence, no exacerbation of the stomach. An appetite sets in.

Now comes the greatest Blood Purifier ever yet given by an indulgent father to suffering man. Schenck's Pulmonic Syrup comes in to perform its functions and to hasten and complete the cure. It enters at once upon its work. Nature cannot be cheated. It collects and ripens the impaired and diseased portions of the lungs. In the form of gatherings it prepares them for expectoration, and lo! in a very short time the malady is vanquished, the rotten throne that it occupied is renovated and made new, and the patient, in all the dignity of regained vigor, steps forth to enjoy the manhood or womanhood that was

GIVEN UP AS LOST.

The second thing is, the patients must stay in a warm room until they get well; it is almost impossible to prevent taking cold when the lungs are diseased, but it must be prevented or a cure cannot be effected. Fresh air and riding out, especially in this section of the country in the fall and winter season, are all wrong. Physicians who recommend that course lose their patients, if their lungs are badly diseased; and yet, because they are in the house they must not sit down quiet; they must walk about the room as much and as fast as the strength will bear, to get up a good circulation of blood. The patients must keep in good spirits—be determined to get well. This has a great deal to do with the appetite, and is the great point to gain.

To despair of cure after such evidence of its possibility in the worst cases, and moral certainty in all others, is sinful. Dr. Schenck's personal statement to the Faculty of his own cure was in these modest words:

"Many years ago I was in the last stages of consumption; confined to my bed, and at one time my physicians thought that I could not live a week; then, like a drowning man catching at straws, I heard of and obtained the preparations which I now offer to the public, and they made a perfect cure of me. It seemed to me that I could feel them penetrate my whole system. They soon ripened the matter in my lungs, and I would spit up more than a pint of offensive yellow matter every morning for a long time. As soon as that began to subside, my cough, fever, pains and night sweats all began to leave me, and my appetite became so great that it was with difficulty that I could keep from eating too much. I soon gained my strength, and have grown in flesh ever since.

"I was weighed shortly after my recovery," added the Doctor, "then looking like a mere skeleton; my weight was only ninety-seven pounds; my present weight is two hundred and twenty-five (225) pounds, and for years I have enjoyed uninterrupted health."

Dr. Schenck has discontinued his professional visits to New York and Boston. He or his son, Dr. J. H. Schenck, Jr., still continue to see patients at their office, No. 15 North Sixth street, Philadelphia, every Saturday from 9 A. M. to 3 P. M. Those who wish a thorough examination with the Respirometer will be charged $5. The Respirometer declares the exact condition of the lungs, and patients can readily learn whether they are curable or not.

The directions for taking the medicines are adapted to the intelligence even of a child. Follow these directions, and kind Nature will do the rest, excepting that in some cases the Mandrake Pills are to be taken in increased doses; the three medicines need no other accompaniments than the ample instructions that accompany them: First, create appetite. Of returning health hunger is the most welcome symptom. When it comes, as it will come, let the despairing at once be of good cheer. Good blood at once follows, the cough loosens, the night sweat is abated. In a short time both of these morbid symptoms are gone forever.

Dr. Schenck's medicines are constantly kept in tens of thousands of families. As a laxative or purgative, the Mandrake Pills are a standard preparation; while the Pulmonic Syrup, as a cure of coughs and colds, may be regarded as a prophylactic against consumption in any of its forms.

Price of the Pulmonic Syrup and Seaweed Tonic, $1.50 a bottle, or $7.50 a half dozen. Mandrake Pills, 25 cents a box. For sale by all druggists and dealers.

JAMES A. JACKSON & CO.—Gentlemen: As you have communicated to the medical profession the recipe of the "Home Bitters," it cannot, therefore, be considered as a patent medicine, no patent having been taken for it. We have examined the formula for making the "Home Bitters," and unhesitatingly say the combination is one of rare excellence, all the articles used in its composition are the best of the class to which they belong, being highly tonic, Stimulant, Stomachic, Carminative, and slightly laxative. The mode of preparing them is strictly in accordance with the rules of pharmacy. Having used them, seen its effects in our private practice, we take pleasure in recommending them to all persons desirous of taking Bitters, as being the best Tonic and Stimulant now offered to the public.

The form of address used by the Doctors of the Health Department of New York, in reporting the mortality of that city to the Board begins "I have the *honor* to report the following deaths," which suggests something of the grim sarcasm of the sheriff whose orders run thus: "I have the *pleasure* to inform you that you are appointed a deputy to assist in the hanging of John Smith."

A Safe & Profitable INVESTMENT.

First Mortgage Bonds,

To a limited amount, upon a railroad which is well located for business, and which has been a ready largely constructed with the funds of its Stockholders cannot be otherwise than safe. This security is increased if the Constructing Company is composed of men of high character, and of ample means for successfully carrying through any work that they undertake.

THE
[illegible] RAILROAD COMPANY

Offer for sale a bond which combines these advantages to an unusual degree. The route lies between Mobile, Alabama, and Houston, Texas — being through New Orleans, the New York of the South. Of the whole line of 475 miles about two thirds are already built, and the Stockholders have expended nearly TEN MILLION DOLLARS in the work. The bonds now offered are secured by a mortgage upon all the part of the line west of New Orleans, which is an enormous traffic assured to it from the start, it being the only rail connection by which the cotton, corn, cattle and other productions of Texas can reach New Orleans.

So important has this road been deemed to Louisiana that the State has made very liberal grants in aid of the enterprise, by direct donations by endorsement of second mortgage bonds, and by subscriptions to the stock of the Company, amounting in all to over eight million dollars.

The First Mortgage

Eight Per cent Bonds

Now offered, are limited in amount to $12,500 per mile and are for $1,000 or £200 each, interest payable January and July, at the rate of Eight per Currency, or 7 per cent Gold, at the option of the holder. Bonds registered if desired.

Among the leading Stockholders of the Company are Hon. E. D. Morgan Ex-Governor and Ex U. S. Senator, Hon. John A. Griswold, Ex-Lieutenant Governor, Troy, N. Y., Hon. Oakes Ames, M. C. Massachusetts; Messrs. Morton, Bliss & Co., Lyon, Hollister & Co., J. & W. Seligman & Co., Harrison, Durkee and others, of New York; Benjamin E. Bates, President Bank of Commerce; Franklin Havens, President Merchants Bank, Boston, and others also well known.

The above statement of facts proves the SAFETY of these Bonds. Their PROFIT is equally manifest upon examination. They are sold for the present at 90 and accrued interest from July 1st. At this price they afford a certain income for forty-five years, of nearly nine per cent upon their cost. One thousand dollars invested in these eight per cent bonds will give the purchaser *more than seventy-six per cent* greater annual interest than the same amount invested in U. S. new Government five Per Cents, while holders of Government bonds will find a decided profit in selling them at present high prices, and re-investing in the New Orleans, Mobile and Texas Bonds.

Subscriptions will be received in Bangor by

Timber Land

For Sale at a Low Rate,

Situated on Moose River, in the town of Greig, Lewis County, New York.

Said timber consisting of White Hemlock, Spruce, Pine and Hardwood. The subscribers own two large tanneries, located on the aforesaid tract, which will consume the hemlock bark, thus enabling the land and timber to be purchased at a comparatively cheap rate. The timber is excellent in quality in all particulars. The aforesaid tract of land is easy of access, being only from six to fifteen miles from both the Black River R. R. and Black River Canal, which lead direct to the Albany Market. The land is comparatively level, well watered and good for farming purposes. Moose River, which extends through the tract, is a large stream and empties into Black River, where the aforesaid Canal leads into Black River. At this point or junction of the rivers, is a fall of sixty (60) feet over which the waters of both rivers flow, thus forming an unlimited water power, (we might say right in the Canal and at the Depot,) to which Moose River will carry the immense amount of timber from the aforesaid lands.

Any parties desiring to manufacture lumber will do well to give this rare opportunity their attention. The land and timber can be purchased at a cheap [illegible]
